

Ritu Nambath

Lead Mobile Application Developer

+91-6359338882 | ritunambath@gmail.com | <https://www.linkedin.com/in/ritu-nambath-67123856>

Profile

Experienced Flutter and Android Developer with 7+ years of expertise in building and publishing mobile applications. Skilled in scalable mobile architecture, agile development, and leveraging AI-assisted development tools to improve productivity, code quality, and delivery speed.

Android & Flutter Skills

Programming Languages: Kotlin, Java, Dart

Architecture Patterns: MVVM, MVP, Bloc and Provider

Dependency Injection: Dagger

Jetpack Components: LiveData, ViewModel, Room, Navigation, WorkManager

Networking: Retrofit, OkHttp, Dio.

Database: Room, SQLite, Hive.

Multithreading: Coroutines, Async.

Version Control: Git, GitHub, Bitbucket and CI/CD: Bitrise.

Firebase Services: Notifications, Authentication, Crashlytics.

Others: REST APIs, WebSockets, Custom Views, Worked on Bluetooth services using SDK.

Developer Productivity & AI Tools

AI-assisted coding: Cursor, Claude, ChatGPT, Gemini

Code Review & Refactoring

Prompt Engineering

Technical Documentation

Achievements

Published multiple mobile applications on App Store and Play Store

Led migration projects from Java → Kotlin → Flutter

Mentored junior developers and trainees

Delivered applications with CI/CD pipelines

Experience

TintBytes.com — Lead Mobile Application Developer

SEPTEMBER 2025 - JANUARY 2026

ROLES AND RESPONSIBILITIES

Developed and delivered mobile applications from scratch.

Utilized AI-assisted development tools including **Cursor, Claude, ChatGPT, and Gemini** for faster development, debugging, code optimization, documentation, and improving engineering efficiency.

iPath Solutions, Ahmedabad — Senior Android and Flutter Developer

DECEMBER 2024 - APRIL 2025

ROLES AND RESPONSIBILITIES

Demonstrated strong problem-solving skills, effective collaboration, strategic planning, and excellent communication while working in an agile environment. Successfully upgraded an old application to ensure compatibility with newer Android versions, enhancing performance and user experience.

ADDV HealthTech Solutions, Ahmedabad — Senior Mobile Developer

SEPTEMBER 2020 - DECEMBER 2024

ROLES AND RESPONSIBILITIES

Migrated 3 mobile apps from Java to Kotlin and later to Flutter, improving performance and code quality. Guided trainees on best coding practices and architecture improvements. Refactored Android apps from MVP to MVVM and implemented BLoC in Flutter for better organization. Managed tasks via JIRA, maintained repositories in Bitbucket, and integrated Bitrise CI/CD for seamless deployments. Ensured quality through unit testing, debugging, and code reviews while staying updated with industry trends.

ELEGANZ IT Solutions Pvt Ltd, Ahmedabad — Senior Android Developer

NOVEMBER 2017 - MAY 2020

ROLES AND RESPONSIBILITIES

Built mobile applications from scratch using Kotlin, mentored junior developers on coding best practices, and engaged in client discussions to align requirements with business objectives.

TOPS Technology Pvt LTD , Ahmedabad — Android Trainer

MAY 2016 - JUNE 2017

ROLES AND RESPONSIBILITIES

Conducted training for students and interns on C, C++, Core Java, and Android, focusing on practical coding exercises and real-world projects. Provided mentorship, led interactive sessions, and guided trainees in resume building and interview preparation to boost job readiness.

MSP IT CONCEPT , Ahmedabad — Android Trainee

JAN 2016 - APRIL 2016

ROLES AND RESPONSIBILITIES

Completed Android training and developed advanced Android applications.

Projects

Body Roundness Calculator

Developed a health and fitness application that calculates the Body Roundness Index (BRI) using height and waist circumference to evaluate body fat distribution and potential health risks. Implemented a more advanced assessment approach compared to traditional BMI by providing better insights into body shape and abdominal fat, helping users understand overall health indicators more accurately.

Fall Risk Assessment

Developed a health and mobility assessment application designed to evaluate fall risk by analyzing user movement and activity patterns. Implemented features to track steps walked, sit-to-stand performance, walking mobility, balance assessments, and activity monitoring to generate a comprehensive fall risk score.

PASAUDIT

A mobile auditing tool for inspections, compliance checks, and real-time issue tracking, widely used for quality control and safety audits. Upgraded the app to Android SDK 34 and implemented necessary permission changes.

APPLOCUM - UK-Based Medical Staffing Application

A mobile and web app for UK medical professionals to manage jobs, schedules, and rewards. Migrated the app from Java to Kotlin, then to Flutter; implemented BLoC, a custom calendar for task tracking, Branch IO for link sharing, and a manual timer notification system.

HEALTHYA - UK-Based Medical Application

A platform for remote consultations, appointment booking, and prescription purchases, ensuring secure healthcare services.

Migrated the app from Kotlin to Flutter, implemented BLoC for state management, integrated OpenTok for video conferencing with native handling via method channels, and set up Bitrise for automated builds.

CONNECTMYHEALTH - UK-Based Medical Application

A platform for remote consultations, appointment booking, and prescription purchases, ensuring secure healthcare services.

Migrated the app from Kotlin to Flutter, implemented BLoC for state management, integrated OpenTok for video conferencing with native handling via method channels, and set up Bitrise for automated builds.

NIRAN MARKET CLOCK (Now name as Market24)

An app that notifies users when global stock markets open.

Ensured accurate notifications and timely alerts for market openings.

SOBERSENSE

Connected and fetched results from the BacTrack device using its Bluetooth SDK.

Implemented Bluetooth receiver services with SDK callbacks to monitor alcohol levels.

Education

Shri Chimanbhai Patel Institute of Management & Research - GTU, Ahmedabad

MASTER OF COMPUTER APPLICATIONS

CGPA (7.45)

CPI (7.12)

Spoken Languages

English, Hindi, Gujarati.

Hobby

Travelling, Painting, Digital Art & Photography
